	17 August 1957
	MEMORANDUM FOR: Intelligence Requirements Officer
	SUBJECT : Current Interest in Heavy Bomber Production
	l. Herewith is a cable from the Director which attracted my attention
1	because it indicates a major concern with estimates of Soviet heavy bomber production. Since
:	that for reasons unknown to me, our current estimates of Soviet production are considered unreliable and that additional hard evidence is believed to be very urgently needed.
	2. I raise this matter with you in order to suggest that, if the above information is correct, there should be prepared a very short (one-half page) statement of this need as a requirement for AQUATONE photography. What I have in mind is a companion piece to the OSI paper on the
	A namer of this cout nomina

1	certain of the specific targets on which coverage should be obtained would be valuable if it were ready in time for the 5:00 meeting on Monday and should be ready by mid-week at the latest in preparation for possible other use. 3. I might say for your information that a high level briefing may be given along with a request for additional authorizations some time next week. It will be important to know at that time exactly what coverage we most want and why.
